## About Me

Motivated Computer Science undergraduate with a strong foundation in data structures, algorithms, and full-stack development. Experienced in building AI-powered applications using modern technologies including Next.js, Node.js, and machine learning frameworks. Passionate about designing scalable software systems and leveraging artificial intelligence to solve real-world problems. Currently seeking a Master's degree in Computer Science to deepen expertise in AI-driven software engineering and distributed systems.

## Education

**Bachelor of Science in Computer Science (B.Sc. CS)** Jul 2023 – Present

*Thakur Ramnarayan College of Arts and Commerce* *Mumbai, India*

- CGPA: **8.80**
- Core courses: Data Structures & Algorithms, OOP, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence, Information & Network Security, Software Testing, Cyber Forensics.
- Strong mathematical foundation in Discrete Mathematics, Linear Algebra, Calculus, and Statistics; hands-on experience in Web Technologies and Android Application Development.

**Higher Secondary Certificate (HSC) – Science Stream** Aug 2020 – Aug 2023

*Royal College of Commerce, Arts & Science* *Mumbai, India*

- Final Grade: **66.83%**
- Subjects: Physics, Chemistry, Mathematics, Biology, Economics

## Projects

**CareerSync AI** | *Flask, TF-IDF, Groq / LLaMA-3, Chart.js* | Live Demo Mar 2026 – Apr 2026

- Built a hybrid analysis engine combining TF-IDF semantic matching with LLM insights for resume-to-JD scoring and skill gap detection.
- Implemented ATS readiness audit with AI-generated executive summaries, cover letters, and mock interview questions via Groq / LLaMA-3.

**CodeShield** | *Node.js, Monaco Editor, Groq API* | Live Demo Mar 2026

- Engineered an AI-powered security vulnerability analyzer detecting SQL injection, XSS, hardcoded secrets, and unsafe patterns in JS, Python, and Java with exact line detection.
- Implemented a 0–100 scoring system with severity-weighted deductions and AI-powered fix suggestions via Groq.

**PrepBuddy** | *Next.js, TypeScript, Firebase, Groq, Gemini Pro* | Live Demo Jan 2026 – Feb 2026

- Developed a dual-LLM interview platform routing Groq for technical interviews and Gemini Pro for behavioral sessions, with resume-tailored question generation via Affinda parsing.
- Built a real-time dashboard featuring skill radar maps and velocity charts synced live via Firestore.
- Integrated timed quizzes with QuizAPI.io and a local fallback mechanism ensuring 100% uptime; added a job matcher comparing skill profiles to live roles via TheirStack with FAANG-level question banks.

**CodeBuddy** | *Next.js 15, Node.js, MongoDB, Firebase, Judge0, Groq AI* | Live Demo Nov 2025 – Jan 2026

- Created a gamified coding learning platform featuring XP, streaks, and learning tracks for Python and HTML/CSS.
- Built an in-browser IDE using Monaco Editor + Judge0 for real-time multi-language code execution.
- Designed a Debug Arena with 8+ timed challenges, adaptive difficulty, and progressive hints; integrated an AI assistant powered by Groq (LLaMA 3.3-70B) for real-time code explanation and error diagnosis.

## Technical Skills

**Languages:** Python, JavaScript, TypeScript, Java, CSS, HTML5

**Frameworks & Libraries:** Next.js, React.js, Node.js, Flask, Pandas, scikit-learn

**Databases & Cloud:** MongoDB, MySQL, Firebase, Oracle Cloud

**AI & ML:** LLM Integration, Groq API, Gemini Pro, TF-IDF, LLaMA-3

**Tools & Platforms:** Git, GitHub, Monaco Editor, Judge0, Vercel, Netlify

## Certifications

**Oracle Cloud Infrastructure 2025 Certified Foundations Associate** Feb 2026

- Issued by Oracle

**Android App Development using Kotlin** Sep 2025

- Issued by EduPyramids / IIT Bombay (Spoken Tutorial)

**Python Essentials 1 & 2** Jun 2025

- Issued by Cisco Networking Academy

**Concepts of Design and Analysis of Algorithms** Feb 2024

- Issued by Thakur Ramnarayan College of Arts and Commerce

## Languages

**Hindi:** C1 **English:** C1
